

# Ridley Island Propane Export Terminal Project Update

Issue 4 | Fall 2018

We are pleased to share with you the latest news from the Ridley Island Propane Export Terminal (RIPET) Project.

## Construction Update

There are **four major scopes of work that make up the RIPET Project**: the tank, balance of plant (BOP), jetty and rail. Currently, all four scopes are tracking on-time and on-budget to meet the schedule completion date.

**1 TANK**      **2 BALANCE OF PLANT**      **3 RAIL**      **4 JETTY**

Top: Inside view of the tank.  
Bottom: Outside view of the tank.

Top: Installation of balance of plant area modules.  
Bottom: Work continues on infrastructure to support facility build out.

Top: Placement of rail-offloading modules.  
Bottom: Off-lease retaining wall along the rail corridor.

LPG loading arm installation scheduled for late fall- early winter 2018.

## RIDLEY ISLAND PROPANE EXPORT TERMINAL

Canada's First Facility on the West Coast

### Did you know?

The Project uses **locally sourced** concrete

Enough concrete has been poured to build **three, 35 floor** high rise residential towers

Our employees have completed **~600,000** manhours

**SAFETY FIRST**  
**zero** notable safety incidents

## RIPET Operator Training Program

AltaGas, in co-operation with Coast Tsimshian communities and Coast Mountain College, developed a customized local Operator Training Program curriculum to provide First Nations and local residents with the technical skills required for long-term, career oriented jobs at RIPET. The six-month training program runs from June to December 2018 and is based in Prince Rupert and Terrace at the Coast Mountain College campuses.

In October, the students travelled to AltaGas' Harmattan Gas Processing Complex in Didsbury, Alberta. The purpose of the trip was to provide students with firsthand knowledge of how their new skills would be applied in an operational setting.

Students who successfully complete the training program will be qualified to apply for a Tech 4 Operator position at RIPET.

Operator Training Program students visit AltaGas' Harmattan Gas Processing Complex. *Left to right:* Leeland Sundsten (Superintendent Harmattan), Jonathon Rudolph, Jae Crosby-Ratte, Christopher Vogt, Jaskirat Randhawa, Shantel Pahl, Thomas Strymecki, David Leask, Christopher Wing, Kyle Leighton, Alina Wesley. *Back row:* Denny Mclean (Supervisor, Maintenance Harmattan)

## In the Community

**Earth Rangers visited seven local schools**

This year, through the support of AltaGas, the Earth Rangers presented their School Assembly Program to seven elementary schools and 1,035 students in the Prince Rupert area.

The Earth Rangers Program delivers a foundation for environmental knowledge and action with live Animal Ambassadors demonstrating their natural behaviors, inspiring video footage of real-life conservationists, and interactive games that get students and teachers involved. Most importantly, the assembly encourages students to join other Earth Rangers Members across the country who are taking direct action to protect animals and their habitats every day.

As a result of these assemblies, 200 students signed up for Earth Rangers memberships.

This is AltaGas' third year supporting the Earth Rangers School Outreach Program as part of our commitment to fund non-profit initiatives that enhance communities and give back to the environment.

To find out more about the program visit [www.earthrangers.com](http://www.earthrangers.com)

### AltaGas Participates in Community Events

AltaGas is privileged to support important organizations that work to enhance the quality of life in Prince Rupert and surrounding area. We proudly supported the following organizations who actively invest in social, cultural and environmental well-being in the community.

- Cow Bay Days
- Kaien Island Trail Enhancement Society
- North Pacific Cannery Intertidal Music Festival
- Rockfish Climbing CoOp

### Nation2Nation Forum

AltaGas recently participated in the fourth annual Nation2Nation forum held November 1 and 2, in Terrace. The forum brings industry and Indigenous people together in conversation about collaborative business partnerships. Dan Woznow, Senior Vice President and Senior General Manager – Energy Exports, participated in a panel discussion on the subject of implementing impact benefit agreements around contracting, employment & workplace matters.
