

# ENVIRONMENT, HEALTH & SAFETY (EHS) POLICY

**We will not compromise on safety**

**We care about the well-being of our people and the community**

**We operate in a responsible manner**

**EHS is a shared responsibility, and we each pledge to:**

- Contribute to our safety culture
- Stop work that is unsafe
- Report all incidents and near misses
- Proactively identify and manage risk
- Provide physical, psychological, and social well-being for our people
- Comply with regulations, laws and standards

**We each have accountability for these commitments. Our senior leadership defines our safety culture and creates programs to help all employees achieve desired results.**
